THE NONPROFIT ALLIANCE
COACHING PROGRAM

INDIVIDUAL COACHING WITH NETWORKING BENEFITS

Building leadership capability in the not-for-profit sector

Exclusively for senior managers and aspiring leaders, the NonProfit Alliance Coaching Program is a 12 month personalised learning and mentoring journey focused on developing the individual leadership skills and expertise of managers who are wanting to move up in the non-profit sector.

The NonProfit Alliance (NPA) is passionate about creating a sustainable future for the non-profit and social purpose sector and achieving a more socially aware Australia. It's our belief that to do this, social purpose organisations need to invest in the capabilities of their leaders, and those who will be leading their organisations into the future.

WE CAN HELP YOU THRIVE NOT JUST SURVIVE

Recognising the increased challenges and complexities you face, the NonProfit Alliance Coaching Program provides you with the support to thrive, not just survive.

IT'S TIME TO INVEST IN YOU

With few opportunities for managers to step back from their day to day operational responsibilities, research shows that investing in leadership development has systematic positive effects and can increase organisational capacity and impact.

WHY SHOULD I JOIN?

The NonProfit Alliance helps you to achieve organisational and personal success

The program allows for real-time thinking – working on genuine issues and opportunities, harnessing your coach's extensive experience that allows for invaluable insights and creates change.

And we hold you accountable. You set goals, you revisit issues and understand how solutions were implemented, what worked and what didn't.

“Training and professional development activities enhance the competence of NFP staff and volunteers so they can better realise their potential. This in turn improves individual and organisational effectiveness and efficiency, which have positive downstream effects on social impact”
